Find Human Resource Within, Forgo Treating

SPIRITUALITY
SADHGURU JAGGI VASDEV

We, as humanity, have not focused on human resource in its real sense. We have invested a lot in maintaining a human being where he is right now, but we have not truly invested in developing a human being in such a way that we open up the human potential.

To make a human being flower, what are the necessary conditions? Your body, mind, emotion and your energy need to be cultivated to their full scope and dimension. You will understand this from your career, your profession and your business—unless you do the right things, right things will not happen to you. This is how life works. If you, as an individual, are not doing the right things, then you will be attracted towards mediocrity. After all, whether somebody is seeking success, money or power, whether somebody is going to the bar, going to the temple or wanting to go to heaven—basically everybody is seeking pleasantness inside and outside.

Right now, your experience is sadly determined in reaction to external situations. Whatever situations you are living in, not a single person on this planet is going to be 100 per cent of the way you want them to be. If this is so, at least this one human being—you—must happen to be your way. But right now, your joy, your peace and your well-being is so fragile. Anybody can shoot it down. When your wellbeing is so fragile, being anxious is normal. When anxiety is normal, mediocrity is also normal.

Especially if the outside situation becomes unpleasant for some reason, if people around you are unpleasant, it is all the more important for you to focus on being pleasant. If we want to truly develop human potential, the most fundamental thing is to create a situation where pleasantness is a cornerstone choice. If it is not something that happens to you because you花钱 is wonderful to you.

If everybody who is working for you is really happy, they don’t need much management.

If the best hand comes out from a human being, the first thing that is true is this, or is true inside, is that it is so joyful, so is that you can keep everybody around you joyful. If everybody who is working for you is really happy, they don’t need much management. This is a very pleasant human resource always. If I meet you when you are very happy, I am sure all of you are wonderful human beings. If I happen to meet people who are very happy, and unhappy, you could be a nasty human being. I am not saying you are, but possible. This is the basic thing which we have not added to.

Your body, mind, emotion and your energies can be constantly enhanced and made to function in a better way than they are right now. The very source of creation is thirubbing within you every moment, but you are not aware of it. This body got created from within, not from outside. What you call your body is an accumulation of food. You provide the raw material, but the molding of the body is happening from within. Instead of living here as an accumulation of food, and an accumulation of impressions which you call mind, if you had access to that source of creation within you, you would live a very excelled life. That is when we can say you are truly developing human resource, not just developing your body and mind.

I want you to see HR in a much larger perspective than just running your company, hiring and firing people. If you realize that human resource, as we individualear, families, communities, nations, and as humanity as a whole have to invest something to develop a human being into a much bigger possibility than the way he is now.
