Question: Sadhguru, I have heard you say that yoga is the Ultimate Expression... what is that?

When we say "yoga", probably for many of you it means some physical postures: twisting yourself into some impossible postures. That is not what we are referring to as yoga.

Yoga means to be in perfect tune. Your body, mind and spirit and the existence are in absolute harmony. When you fine-tune yourself to such a point where everything functions so beautifully within you, naturally the best of your abilities will just flow out of you. When you're happy, your energies always function better. Do you see that when you're happy you have endless energy? Even if you don't eat, if you don't sleep, it doesn't matter; you can go on and on. Have you noticed this? So, just a little happiness is liberating you from your normal limitations of energy and capability.

Now, yoga is the science of activating your inner energies in such a way that your body, mind and emotions function at their highest peak. When your body and mind function in a completely different state of relaxation and a certain level of blissfulness, you can be released from so many things that most people are suffering from.

Right now, you come and sit in your office, and you have a nagging headache. Your headache isn't a major disease, but it takes away your whole capability for that day. Just that throbbing takes away everything. With the practice of yoga, your body and mind will be kept at their highest possible peak.

There are also other dimensions to yoga. When you activate your energies, you can function in a different way. As you are sitting here right now, you consider yourself to be a person. You are identified with many things, but what you call as "myself" is just a certain amount of energy. Do you know, modern science is telling you that the whole existence is just energy manifesting itself in different ways? If this is so, then you're also just a little bit of energy functioning in a particular way. As far as science is concerned, this same energy which you call as "myself" can be here as a rock, lie there as mud, stand up as a tree, bark as a dog, or sit here as you. Everything is the same energy, but functioning at different levels of capability.

Similarly, among human beings, though we're all made of the same energy, we still don't function at the same level of capability. What you call capability or talent, what you call your ability to do things in the world, your creativity, is just a certain way your energy functions. This energy, in one plant it functions to create rose flowers, in another plant it functions to create jasmine, but it's all the same energy manifesting itself.

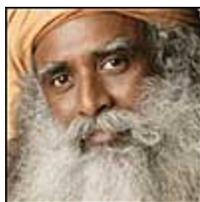

If you gain a little bit of mastery over your own energies, you will see, things that you never imagined possible you will do simply and naturally. This is the

experience of any number of people who have started doing these practices. It is the inner technology of creating situations the way you want them.

With the same mud that we build such huge buildings, initially people were building little huts. They thought that's all they could do with it. With the same earth, haven't we built computers? What you call a computer is dug out of the earth. We thought we could only dig mud and make pots or bricks out of it. Now we dig the earth and make computers, cars and even spacecraft out of it. It is the same energy; we have just started using it for higher and higher possibilities.

Similarly, our inner energies are like that. There is a whole technology as to how to use this energy for higher possibilities. Every human being must explore and know this. Otherwise, life becomes very limited and accidental; you get to do only what you're exposed to. Once you start activating your inner energies, your capabilities happen in a different sphere altogether.

Yoga is a tool to find ultimate expression to life.

Sadhguru Jaggi Vasudev is a realised master, Yogi and a profound mystic of our times. Sadhguru developed Isha Yoga - Yoga of the Divine, a scientifically structured programme, as the vehicle to transmit a deep experience of the Self that changed his life completely about two decades ago.

Belonging to no particular tradition, Sadhguru incorporates what is most valid for the modern seeker. Isha Yoga flourishes today as a spiritual science for hundreds of thousands of initiates around the world.

An accomplished poet and an author of several books, his latest book - 'Mystics Musings' - is one of the most candid unveiling of the mystical dimensions of life.

Isha Foundation, founded by the Sadhguru, also administers the Dhyanalinga multi-religious temple and meditation shrine, an ashram, and a yogic hospital at the Isha Yoga Centre, located on 50 acres at the foothills of the Velliangiri Mountains, 30 km from Coimbatore.
