

Kailash Manasarovar Sojourn

This is a space of enormous Grace... enormous! If you feel the power of this place, if you allow yourself to feel the grace of this space, you having been born becomes worthwhile; that's how it is.

- Sadhguru

To see the grandeur of a mountain, one must keep one's distance; to understand its form, one must move around it; to experience its moods, one must see it at sunrise and at sunset. However, to truly know it, one must journey to the mountain with the Grace and Blessings of a Master, an Enlightened Being.

Mount Kailash, regarded as the spiritual center of the universe, is revered by Hindus, Buddhists, Jains and Bonpos alike. For Hindus, Lord Shiva resides on top of this wondrous peak in an eternal state of meditation, creating the sustaining force that holds the universe together. According to Tibetan tradition, whenever a certain number of realized beings gather in this location, Gautama Buddha physically manifests himself.

Twenty kilometers away from Kailash unfolds Manasarovar, the most beautiful and sacred lake in the world. Situated at a height of 15,015 ft, it is the highest source of fresh water in the world. This blue and emerald green lake has been attributed with healing properties. Moreover, ever since Sadhguru visited Kailash and Manasarovar, many of their mystical dimensions have been revealed.

Isha Foundation offers you the rare privilege of exploring the beauty and sacredness of Mt Kailash and Manasarovar. Guided and enveloped by intense meditation processes and satsangs, you can experience the explosive power of these sacred mountains and the saints who reside in them, thus unraveling the forces of life and our own ultimate potential.

Managed by our highly-trained and dedicated teachers, Isha Foundation takes utmost effort in making this unique sojourn a truly memorable experience for you by looking after every individual's need with genuine care.

Travel in Tibet:

Tibet, referred to as the highest region on earth, is also one of the least developed parts of the world. Being extremely remote and isolated, the facilities for pilgrims although being upgraded are still at a basic and limited scale. So, on entering Tibet, it might be necessary at times to share a room with a few others or participate in an outdoor toilet adventure, or go without a shower for a few days. In any case, we will always be there to support you and make the journey a pleasant one.

Isha is not a tour company, yet we offer this sojourn with the intention of providing you with the opportunity to experience these sacred places in their true depth and dimension. We have several years experience now in successfully taking people to these sacred places. Just last year, a record number of 500 participants successfully completed the sojourn.
