Isha Agro Movement

The Isha Agro Movement was established in 2007 under the guidance of Shri. Nammalvar, the pioneer of organic farming movement in Tamil Nadu. It was established as a platform to develop and promote collective farming. Since 2015, Isha Agro Movement has also focused on reviving natural farming methods that were traditionally followed in India up until four decades ago. It provides practical support to farmers in all aspects of natural farming including training in efficient organic farming methods, value addition, marketing and procurement. Till date, over 4200 farmers have been trained in Tamil Nadu in natural farming methods and over 70% of trained farmers have converted to organic farming leading to improved produce, price and health.
